

This tool is to help your care team see how they can help you learn more about your Cystic Fibrosis (CF).

Name: _____

Please read each answer carefully before choosing the **one** answer you think is **best**. If you don't know an answer, no big deal. Just leave it blank and move on to the next question.

Date: _____

CF & YOUR BODY

1 Match the item on the left to the part of the body it is related to:

a. Pancreatic enzymes

Stomach and intestines

b. Vitamins (A, D, E, & K)

Lungs

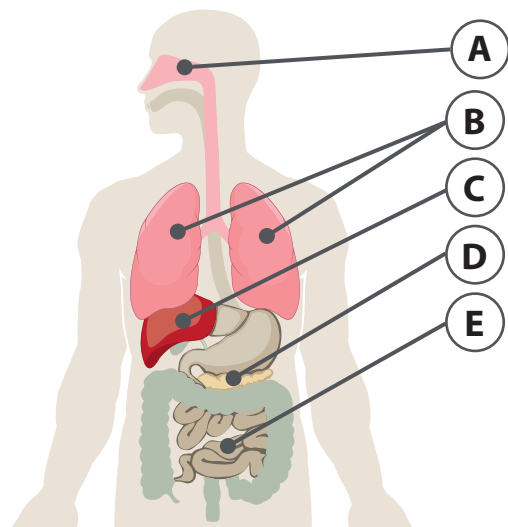

c. Salt

Eyes, cells, bones, and liver

d. Bronchodilators, mucolytics, inhaled antibiotics

Sweat glands

2 CF may cause changes in the body parts listed below. Match each body part to a letter on the diagram:

Pancreas – releases enzymes to help digestion

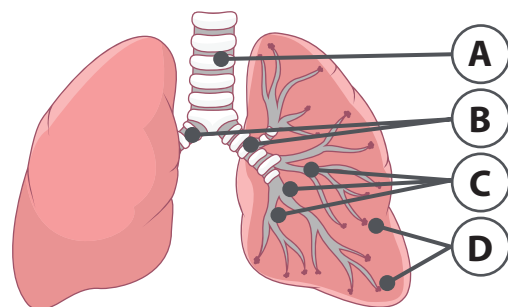

Sinuses – air-filled spaces

Intestines – process and absorb nutrients from food

Liver – cleans toxins from the body

Lungs – help you breathe

3 Match each part of the lung to the letter in the diagram:

Bronchus – an airway in your lungs

Bronchioles – tubes that transport air in and out

Alveoli – ends of the bronchioles, where oxygen is taken from the blood vessels

Trachea – another name for your windpipe
